Preliminary Engineering Report (PER) Presentation by Donahue

- Jeremy Roschyk from Donahue presented the PER on behalf of the town for improvements to the water utility system. Improvements include new water mains throughout the town to increase the pressure in areas where there has been difficulty getting good pressure. Also, improvements to the water treatment plan that was originally constructed in 1988 and has been long since needed. This is the initial document that is required by the Indiana Finance Authority to apply for a State Revolving Fund (SRF) Loan. After the Public Hearing, the PER will be finalized, which the state has a copy of, and there will be one more chapter for Public Hearing information that they will provide. Donahue should receive notification in July stating whether the scoring for the project is in the fundable range.

-No public comments.

Motion to accept the PER as presented by Donahue was made by Council Member Colanese and seconded by Vice President Doll. Motion was carried 3-0.

Adjournment
